About IHE

IHE Heavy Equipment Operator College has been preparing students for professional careers as heavy equipment operators since 2005. We teach a combined curriculum of online theory with 5 hrs of hands-on, daily, practical, individual, equipment instruction. Instructors, chosen for their industry experience and technical knowledge, are in the field with students, guiding them each step of the way, as they develop skill through safe machine operation completing real industry tasks.

HEO Industries
